SUMMARY

Product Designer with 6 years of experience across web and mobile, from user research and information architecture to scalable design systems and final UI. Recently designed a SaaS platform from the ground up (0-to-1), covering both marketing and product surfaces. I make complex, data-dense products feel simple, and ground design decisions in research and measurable outcomes. I use AI tools like Claude and Claude Code daily to speed up prototyping and research. Supported by a systems-oriented background in Computer-Aided Design. I recently built my own portfolio website end-to-end using Claude Code — from component structure to deployment.

PROFESSIONAL EXPERIENCE

PRODUCT DESIGNER

Jan 2025 - Present

Farsafe. Texas, USA, part-time, remote

1 year 9 month

- Sole designer on a 0-to-1 uptime-monitoring platform, spanning the marketing website and the in-app monitoring dashboard; owned the product experience end to end.
- Led discovery research (surveys and interviews with developers, agencies, and small teams) that defined the product's design targets - pricing clarity, alert reliability, and tool consolidation.
- Made pricing transparency the core conversion strategy, turning the category's biggest friction into its strongest reason to trust - Signup Conversion Rate — 7.4%; Dashboard Task Success — 92%; Time-to-First-Probe — 1 min 41 sec and etc.
- Designed one overview-first system reused across the fleet dashboard, single-probe, and public status views, keeping a data-dense product learnable across every view.
- Built the design system and responsive grid underpinning both surfaces, and partnered with the founder and a frontend developer for a clean design-to-development handoff.
- Used Claude Code to build working prototypes for user testing, speeding up validation before development handoff.
- Used Claude to draft marketing copy (pricing page, onboarding flows), support competitor desk research, and generate design system documentation.

UX/UI DESIGNER

May 2023 - Dec 2025

bART Solutions. Lviv, Ukraine, full-time, remote

2 years 8 month

- Owned UX/UI for production web and mobile products, from research and flows through high-fidelity UI, using design systems and tokens for consistency across screens and states.
- Translated business requirements into information architecture, user flows, and wireframes, making UX decisions grounded in business goals and user needs.
- Proactively surfaced UX issues and drove improvements beyond the initial scope.
- Reviewed and directed the UI work of an external designer, safeguarding consistency, usability, and product alignment.
- Led client and stakeholder communication to align on goals, scope, and requirements; documented design decisions and rationale.
- Partnered with developers through implementation, handoff, and QA in an agile workflow, iterating on designs based on real usage.
- Used AI tools (Claude, ChatGPT) to speed up interview synthesis, draft documentation and user stories, and generate UI concept ideas during brainstorming sessions.

UI DESIGNER

May 2021 - Apr 2023

Fintech mobile app (under NDA), full-time, hybrid

2 years

- Turned wireframes and user flows into polished, device-optimised mobile UI, partnering with UX designers, product managers, and developers.
- Created wireframes, interactive prototypes, and high-fidelity mockups across screen sizes.
- Applied iOS Human Interface Guidelines and Material Design while maintaining brand consistency across products.
- Improved UI consistency and usability across multiple features through iterative design and feedback cycles.

GRAPHIC DESIGNER

Freelancer, Self employed

Mar 2020 - Apr 2021
1 year 2 months

- Designed brand identities, logos, and visual assets across digital and print for clients in multiple industries.
- Produced marketing collateral (brochures, flyers, posters, banners) and digital assets for social media, websites, and email campaigns.
- Consulted with clients to define goals and requirements, translating them into effective visual solutions.

SKILLS

UX & PRODUCT DESIGN

User Research & Insights, Product Thinking, Information Architecture & OOUX, Customer Journey Mapping, Design Thinking, Usability Testing, Requirements Definition

UI & VISUAL DESIGN

UI Design, Visual Design, Typography & Layout, Mobile Design, Accessibility

INTERACTION & SYSTEMS

Wireframing & User Flows, Prototyping, Design Patterns, Design Systems, Design Tokens, Design Handoff

AI-ASSISTED DESIGN

Claude, Claude Code (rapid prototyping), AI-Assisted Research Synthesis

COLLABORATION & PROBLEM SOLVING

Communication & Collaboration, Stakeholder Management, Agile Team Collaboration, Problem Solving, Empathy & Creative Thinking

LANGUAGES

UKRAINIAN

Native Language

ENGLISH

B2

SPANISH

Basic

EDUCATION

LVIV POLYTECHNIC NATIONAL UNIVERSITY

Lviv, Ukraine

Bachelor's degree in Computer Science ; Department of Computer-Aided Design

2020-2022

- Bachelor's thesis: "Web Application for Multi-Blockchain System Management (Node.js)" — planning, designing, and implementing a web solution with emphasis on clear structure, documentation, and practical development workflow.
- Key focus areas: OOP, web development, blockchain fundamentals.

IVAN FRANKO NATIONAL UNIVERSITY OF LVIV

Lviv, Ukraine

Junior Specialist's degree in Computer Science

2017-2020

COURSES AND CERTIFICATES

CREATING EPIC ECOMMERCE EXPERIENCES FOR BRANDS: AN ADVANCED GUIDE

awwwards.

[Certificate Link](#)

Nov 2023

Advanced course focused on designing high-quality e-commerce experiences, covering UX patterns, storytelling, and performance-driven design decisions.

OBJECT-ORIENTED UX (OOUX) FUNDAMENTALS

Udemy

[Certificate Link](#)

Sep 2023

Introduction to object-oriented UX methodology, focusing on content modeling, object relationships, and designing scalable, system-based interfaces..

INTRODUCTION TO USER EXPERIENCE DESIGN

Georgia Institute of Technology

[Certificate Link](#)

Mar 2023

Introduction to object-oriented UX methodology, focusing on content modeling, object relationships, and designing scalable, system-based interfaces.

CREATE A PRODUCT DESIGN BRAINSTORMING WITH MIRO

Coursera

[Certificate Link](#)

Jan 2023

Hands-on course on facilitating product design brainstorming sessions using Miro, with a focus on collaboration, ideation, and team workflows.

UX FOUNDATIONS: INTERACTION DESIGN

[Certificate Link](#)

LinkedIn

Jan 2023

Covers core interaction design principles, including user flows, affordances, feedback, and designing intuitive digital interactions.

INTERACTION DESIGN: INTERFACE

[Certificate Link](#)

LinkedIn

Dec 2022

Focuses on designing effective user interfaces, including layout, visual hierarchy, and interaction patterns for digital products.

UX/UI INTERFACE DESIGN

[Certificate Link](#)

Creative Practice

Aug 2022

Practical course on designing user interfaces, covering layout, UI components, and visual consistency across digital products.

FIGMA BASIC

[Certificate Link](#)

Creative Practice

July 2022

Introduction to Figma fundamentals, including interface design, components, and basic prototyping workflows.

DESIGN BASICS

[Certificate Link](#)

Creative Practice

Apr 2022

Covers foundational design principles such as composition, balance, color, and visual hierarchy.

GRAPHIC DESIGN. COMPOSITION

[Certificate Link](#)

Creative Practice

Apr 2022

Focused on visual composition principles, including alignment, spacing, contrast, and creating clear visual structures.
